OVERVIEW

One of McElroy's smallest fusion machines, the Mini-Mc™, makes small diameter butt fusion projects simple. The Mini-Mc is compact, lightweight, highly reliable, accurate and rugged. Perfect for joining ½" CTS to 1" IPS (16mm to 34mm) service sizes, the Mini-Mc requires only one operator and works in the most difficult conditions.

McElroy's patented features and precision engineering provide joint integrity and minimal maintenance. The narrow clamp design provides for butt fusion with precise pipe alignment at the fusion joint. The heater is thermostatically controlled and has a durable anti-stick coating.
