

# DBM-60

## Mid-Duty Squeeze Tool

### 6" IPS Hydraulic ML Series

The Model DBM-60 Medium Duty Squeeze Tool is similar to the DBG-60 manual tool with the exception that it is hydraulically operated.

A reduced-stroke version of Mustang's proven hydraulic cylinder provides 41,000lbs of force directly over the pipe. The cylinder incorporates a built in locking valve to assure that pressure is maintained on the pipe in the event of a hydraulic failure.

Saddle clamps are provided to mechanically lock the upper and lower jaws and to assist in accomplishing a good squeeze off.

Weight: 117lbs  
 Dimensions: 42" Height  
 Capacity: Specify (2) Sizes (see table below)

- DBM-60 Unit Includes:**
- > Model 20 Hydraulic Pump
  - > SC-60 Saddle Clamps
  - > Squeeze Release Control Valve (optional)

Pipe Size	Nominal Wall Thickness	SDR	Gap Stop	%Max Squeeze
IPS 3"	.259	13.5	.450	26
	.307-.318	11.5-11	.500	29
	.389	9	.675	26
IPS 4"	.333	13.5	.560	25
	.395-.409	11.5-11	.675	26
	.500-.548	9	.800	24
IPS 6"	.427	15.5	.725	22
	.491	13.5	.813	26
	.568-.602	11.5-11	1.00	26
